Rugvista enters into a lease agreement

Rugvista has signed a 9-year lease agreement with Catena regarding a new office- and logistics facility of 13,700 sq.m. The facility is being constructed by Catena in the Malmö Mellersta hamnen area, with Rugvista expected to move in by the summer of 2025.

With the new premises, Rugvista will consolidate its headquarters, warehouses, and logistics under one roof, providing opportunities to streamline and optimize logistics, warehouse, and office operations in a purposeful and scalable manner.

The establishment in the Malmö Mellersta hamnen area aligns with Rugvista's logistics needs, offering easy access to both the E6 and E20. Simultaneously, it is a central location with proximity to railways and public transportation, making it an attractive location for our employees.

Rugvista is continually working to increase energy efficiency and the use of renewable energy and sustainable materials in its value chain. The new office and logistics facility will be environmentally certified and solar panels will be installed on the roof.

- Upon move-in, approximately 100 employees will work in the new, modern facility tailored to our operations. We particularly appreciate that sustainable solutions are part of both the construction process and the finished facility, and we look forward to the continued collaboration with Catena, says Rugvista's CEO, Michael Lindskog.

- We look forward to welcoming Rugvista to a workplace that aligns perfectly with our philosophy that warehouse and logistics facilities should also be attractive workplaces where people thrive and develop," says Catena's Regional Director, Fredrik Renå.
